FIG. 6

FIG. 1 is a schematic diagram of a circular optical device in cross-section. The device consists of a central core 30 surrounded by concentric layers 31a and 31b, all within a circular housing 25. A horizontal axis X and a vertical axis Y are shown. A radius R is indicated from the center to the outer edge of the housing. A label L25 points to the inner core region. Other labels include 35, 36, 37, and 38.
